

KUMON[®] connections

NEWS FROM THE SEATTLE- UNIVERSITY VILLAGE CENTER

Dear Kumon Parents,

At first glance, summer may seem like a time to take a break from academics, to give the mind and body a needed rest. Certainly, the majority of red-blooded students of all ages would agree!

Indeed, we all need vacations to rest and unwind, yet according to studies in the Journal of Educational Research, children can lose approximately 2.6 months of knowledge if not provided with any educational stimulation over long breaks. Kumon is an ideal program to fill in the gap because it...

Keeps the mind agile: Kumon's individualized math and reading programs are tailored to each student with short, daily assignments and consistent practice.

Provides an anchor: Kumon can provide that needed anchor of structure for your summer days. Some kids require more structure than others, but a focused mind and a bit of structure can mean better days for children and parents trying to create a balance of recreation and structure through the summer.

Reinforces information: Students work at their own pace, strengthening each skill before moving on to the next. Through repetition, students gain confidence, build skills, and retain vital information.

Requires minimal time: Students need to do only 10-15 minutes per subject, per day, building a thorough understanding of topics, strong work ethic, concentration, and self-learning.

Helps build or build on existing skills: From counting to calculus, basic phonics to advanced reading comprehension, students of all grade levels progress at a pace that's right for them. In doing so, they develop a love of learning.

Builds confidence for the year ahead while leaving 23 hours each day for summer fun in the sun! Students who are enrolled in Kumon over the summer hit the ground running when school starts again in the fall because their brains are "fit" from daily Kumon exercise in the summer months.

My staff and I are looking forward to a great summer with our amazing students and families! Please get in touch with questions or for more information.

Thank you!

Sincerely,

Jeannie Ianelli

A Word about Summer Learning

Summer is a special time for many reasons. Here at our center, we've seen that when kids are free of their school routine, requirements and social pressures, they are generally better learners. Perhaps rested minds are more open to learning! Whatever the reason, we so enjoy seeing the "fruits of this season" in our summer students.

We are closed for Memorial Day on Monday, May 30th.

Kumon of Seattle at University Village, 2625 NE 46th Street, Seattle WA 98105
